**& ARCHITECTURAL
METAL WORKS**

Introduction

We, City Liner have proven our expertise in the fabrication supply and installation of custom made signs.

We deliver the signs that best serves your interest by listening to your requirements. Our hands-on management style makes our team unique to stand out from the rest. Our resources include a thousand square meter workshop, creativity and technical know-how of our management and staff, and state of the art machineries efficiently used by our hardworking skilled manpower.

These resources provide us with the best tools to turn your vision into a reality. Please be our guest and browse through the pages.

Our quality end product deserves the gift of your keen eyesight.

TECOM

By producing, installing and maintaining most of the high-quality signboards of the Information and Communications Technology (ICT) organizations situated in Dubai Internet City, we have surpassed our tests in the industry.

DEVELOPERS

Our printing services expanded in 2006, when we dealt with one of the largest private real estate developers in the Middle East – DAMAC. We took pride in printing and installing their advertising banners which were as tall as their building, and the formation of its mile long advertising hoardings. Our agenda also included car ramps.

Our clients

BANKS

We also make time in conceptualizing the outside branding of different financial institutions. Our work encompasses a complete service, from the bank's external signage, branding and fabrication of ATM kiosks up to internal signs. The objective of our signs is to provide the client's ease of access to the different bank departments. We propose this objective for the signs that will be installed internally.

RESTAURANTS

We were elated when we found out that our finished products, such as the Burger King signs, are now being exported to the Gulf and Middle East Regions.
